COVID-19 Medical/First Aid (Policy Addendum)

Areas	Hazards	Risk control measures?
Virus contamination/spread	Pupils spreading coronavirus	<p>A child who becomes ill with COVID-19 symptoms while at school will go to a designated isolation room to be isolated until collected by a parent or carer. Staff supervising in the room will use PPE equipment. Ventilation is to be maximised and the room will be deep cleaned before reuse.</p> <p>There must be PPE equipment for the member of staff staying with the child while awaiting pick up. There is no requirement for the staff member to self-isolate unless they develop symptoms themselves.</p> <p>In the event of a positive test, the child should self-isolate for 10 days. Other family members of their household including siblings should self-isolate for 14 days from when the child's symptoms first appeared.</p>
	Staff spreading coronavirus	<p>An adult who becomes ill with COVID-19 symptoms while at school will go home straight away (use a designated isolation room if needed) and seek a test.</p>
	Staff and pupils contracting/spreading coronavirus	<p>Children requiring first aid or regular medication will be seen by staff member wearing gloves and/or mask as appropriate</p> <p>Minor injuries in class or on the playground will be dealt with by staff in situ. All classes/bubbles to have first aid box. Where appropriate staff to complete medical notes and a message sent home as per school arrangements.</p>
Medication	Access to medication	<p>Children's medication to be accessible and up to date and stored/given to the staff and classroom/bubble area they are in keeping with local school arrangements.</p>
