

Standards Committee

Terms of Reference

The Standards Working Party was initiated in May 2021, to give the Trust Board greater capacity to study school performance and standards.

Following a recommendation from a review of Trust Governance in the Spring of 2022, the Trust Board resolved in May 2022 to formalise this working party as a committee with the following terms of reference:

To monitor school performance and ensure that the Trust's School Improvement resources are targeted and impactful.

This will be achieved by:

- ✓ *Analysing top level data*
- ✓ *Monitoring the work of the School Improvement Lead*
- ✓ *Monitoring cross Trust initiatives with a link to teaching, learning and standards (for example Peer Review Triads and Subject Leader Groups).*
- ✓ *Establishing 'lines of enquiry' for each school*
- ✓ *Ensuring local governing bodies receive and address these 'lines of enquiry' in Local Governing Body Meetings.*

The Committee shall meet at least once per term and will be attended by the School Improvement Lead, and any Trust Headteachers that wish to attend.
